

CaseID: 202045077

Hospital: Contoso HealthCare

Location: Los Angeles

Event Date: 6/16/2015

Event: Fall on same level due to slipping

Nature: Fractures

Final Narrative	Hospitalized	Amputation	Part Of Body	Source
The refrigerator and ice maker in the break room were leaking causing water to drain onto the floor. An employee placed items in the refrigerator and was going to the assignment board when she slipped and fell fracturing her patella which required surgery.	1	0	Knee(s)	Floor, n.e.c.
